

Siliclone (Popovics)

Hook - 1/0-3/0

Thread - white/pink/green saltwater

Tail - Bucktail white/green/pink/blue

Flash - flashabou/slinky fibre/crystal flash

Head - Lambs wool - green/pink/yellow/white

Silicone - any product Clear recommended, but can have coloured for effect. (I will have a large tube, but others may wish to bring a variety to work with). Hit up Bunnings, Super Cheap, Aldi etc.

Stick on Eyes - medium to large

To work with silicone:

Wetting agent - Photo-flo (difficult to get) or clear dishwashing liquid.

latex gloves/rubber gloves

Cardboard and paper

plastic knives

wetones, and/or tissues for cleaning hands.

Also bring scissors and/or razor to shape the head.

For the workshop on 24 June, no need to bring anything more than your normal fly tying tools (vice, thread etc). Materials will be provided by Geoff and/or club resources

To get an idea of the tie, you can check out

http://stripersurf.com/FG_siliclone.html

Geoff says that in Popovics original, he doesn't have any saddle hackles. Can tie with or without depending upon preference.
