FREE YABBY NET SWAP PROGRAM

You are no longer allowed to use opera house nets in any waters in the ACT.

Opera house nets are already illegal in all public waters, but they are now illegal in private waters as well.

Banning the nets across all ACT waters is a key part of ACT Government's effort to stop the drowning deaths of native aquatic animals like platypus, turtles and rakali in these nets.

The ACT Government is running a free yabby net swap program to encourage recreational anglers in the community to exchange illegal opera house nets for a new wildlife friendly open top pyramid net.

For more information visit
www.environment.act.gov.au

The ACT Government will supply selected stores with pyramid yabby nets where recreational fishers can exchange up to two opera house yabby nets for an environmentally friendly pyramid net at no cost.

You can swap your nets at the following stores:

ANACONDA FYSHWICK

36 Iron Knob Street Fyshwick ACT 2609

Ph: 02 6123 3600
